Petitioner hereby disclaims the terminal part of any patent granted on the above-identified Application which would extend beyond the expiration date of a full statutory term as defined in 35 U.S.C. 154 to 156 and 173 of U.S. Patent No. 6,613,059, not shortened by terminal disclaimer. Petitioner hereby agrees that any patent granted on the above-identified Application shall be enforceable only for and during such period that the legal title to such patent and U.S. Patent No. 6,613,059 are commonly owned. In making the above disclaimer, Petitioner does not disclaim any terminal part of any patent granted on the above-identified Application prior to the expiration date of the full statutory term, not shortened by terminal disclaimer, of U.S. Patent No. 6,613,059, if such patent: (1) expires for failure to pay a maintenance fee; (2) is held unenforceable or is found invalid by a court of competent jurisdiction; (3) is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. 1.321; (4) has all claims canceled by a reexamination certificate; (5) is reissued; or (6) is otherwise terminated prior to the expiration of its full statutory term.

The undersigned (whose title is supplied below) is empowered to act on behalf of Petitioner.

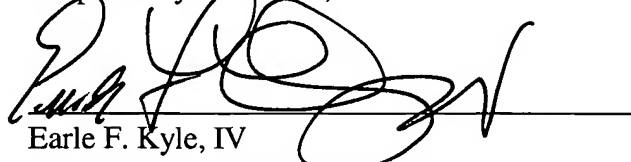

Documents establishing the chain of title of the subject patent application (including the aforementioned assignment and a notice from the Patent and Trademark Office noting its recording location) have been reviewed and I certify that, to the best of my knowledge and belief, title is in Petitioner.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made herein on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the above-identified application or any patent issuing thereon.
